

My Top 10 Apps For Living More & Working Less

*Smart Ways to Save Time &
Money Without New Tech
Overwhelm and Online Burnout*

Hey There!

Thanks so much for joining me in The Legacy Business Blueprint Masterclass! This is your free gift for joining me live!

I hope the 10 apps in this download give you more time and make you more money! I use most of them on a daily basis to run my life and business!

If you have any questions at all, please know my DMs are always open!

And if you have not checked out The Legacy Business School yet, I highly recommend you do because those 4 Pillars I mentioned in the masterclass are what truly set me free from the 80+ hour weeks and allowed me to triple business revenue and my personal paycheck!

Here is the link:

Google Calendar

Google Calendar! If you are still using paper, I am here to tell you it could be holding you back! Using an online calendar saves you time because you always have it with you, so you can respond yes or no to requests on the go! No more, let me check my calendar and get back to you, which then costs you lost time by having to reply to the person when you get home and get your paper calendar! It also syncs to all devices, you can share with others so they know what you are working on, and my favorite you can color code each item!

The screenshot shows the Google Calendar interface for April 2021. The calendar is displayed in a grid format, with days of the week (SUN to SAT) and dates (1 to 30) visible. The interface includes a search bar, a list of calendars on the left, and a navigation bar at the top. The calendar shows various events and reminders, including birthdays, work events, and family events. The events are color-coded and include details such as time and location. The interface is clean and user-friendly, with a clear layout and easy navigation.

SUN	MON	TUE	WED	THU	FRI	SAT

Dropbox

Dropbox! Now that everything is digital, you need a simple place to store everything needed to run your business and life! I have been using this app for over 10 years and it just keeps getting better! Do you know you can now scan documents from your phone and store in a file! No more taking a picture of a document on the go and hoping it comes out good! When you get a business account, you can assign each of your team members an account so it all syncs together!

This allows you always have control of all documents that your team is working on! You can have Dropbox on your Desktop & Mobile devices for easy access!

<https://www.dropbox.com/>

3

Google Drive

Google Drive! Another document storage option! Okay so which one is better and which one should you choose! Good question! BOTH! Here is why...

Dropbox is great for storing items that you are not going to work on remotely or with a team. Think about contracts, pictures, and human resources files.

Where as Google Drive is way better at sharing working documents where many people can collaborate. For instance, if you are writing a script or working on a excel document with multiple people, Google Drive is the way to go! Or if you want to easily share a document with someone on social media, Google Drive easily creates a link they can view or edit, your choice! Again you can use it across all devices but you do need to install an app on mobile to make edits!

Canva

Canva! You might have heard of Canva but thought it was only for creatives! I can tell you this software and app have come a long way baby! I used to struggle with using it to design images, but now it is so simple!

I highly recommend the Pro version to have access to more images, buy the year plan and save money! This simple program will allow you to design beautiful documents, social media images, presentations, and so much more! Want to do a presentation, Canva can now do the same thing and even better! The best part is, it works really well on your phone, so you can design on the go! Yes you can even stick with the Free version to start!

5

Cinchshare

Cinchshare! Are you facing social media overwhelm? Always trying to remember to post? I get it! Try Cinchshare! This simple social media posting program is great for set it and forget it! I sit down once a month for about an hour and schedule a months worth of content for my Facebook Group and Cinchshare posts it for me, so I don't have to! It saves the posts too, so you can repurpose them in the future which is a HUGE time saver! You can use this program to post on Facebook, Instagram, Twitter and LinkedIn! Use the link below to get a 14 day Free Trial!

6

Fiverr

Fiverr! If you are looking for help with a graphic, transcription, a video, or consulting, check out Fiverr!

They are a freelance services marketplace! The best thing I love is its affordable and fast service! I got The Legacy Business School logo done there for \$20 in 4 days! Yes you have to do some searching for a great freelancer but once you find one you love, its so easy to order more items! Again, Fiverr has a Desktop version and an app that works really well! So you can request and respond to projects on the go! And if you are a creative who would like to make some extra money, become a provider on Fiverr and show off your skills!

The screenshot displays a Fiverr profile for a user named 'this_guy'. The profile includes a circular profile picture, a 'Level 2 Seller' badge, and a '5.0 (15 Reviews)' rating. Below the profile information are buttons for 'Contact Me' and 'Custom Order'. The 'Gigs' section shows five listings with images and descriptions: 'I Will Create A Hand Drawn Feminine Logo' (\$50), 'I Will Create An Elegant Logo' (\$350), 'I Will Customize Colors Of This Hand Drawn Social' (\$200), 'I Will Illustrate A Flyer Or Poster' (\$1,500), and 'I Will Illustrate A Stylish Portrait' (\$350). A 'Successfully completed' section highlights three orders: 'Craft a Logo by Hand' (Oct 2018), 'Adobe Photoshop Mastery' (June 2018), and 'Google Analytics - Advanced' (May 2018). The 'Reviews' section shows a 5-star rating from 15 reviews, with a 'Most Recent' dropdown menu.

7

Poshmark

Poshmark! You know I could not keep them all work related! No actually this app is perfect for the busy woman who needs to purge and refresh her closet without having to go to the store! For instance, last night I listed 3 items that took me about 5 minutes each to list and woke up this morning to having sold two of them! I simply printed out the pre-paid shipping label, popped in a shipping bag (that I had saved from another item) and off they went! In a few days the buyer will receive and accept them and your funds will be deposited into your account! You can then shop with them or transfer to your bank account! It's that simple!

8

Tapestri

Tapestri! This is a brand new app that you can install on your phone that simply pays you money for doing pretty much nothing. How does it work? Tapestri works seamlessly in the background to allow consumers to earn money from their data. It's that simple. You install it, create an account, and agree to terms. It runs in the background on your phone and you can get paid once a month for just living your life!

Audible or Kindle

You might be thinking how are books going to save you time or money! Good question! As an entrepreneur, it is integral to keep learning so you can keep growing! However, I know we all have a lot going on, so finding time to read daily may be tough, even when we have a great morning routine! So I highly suggest Audible if you like to listen to books or Kindle if you can read on the go. I read while waiting in line at stores! BUT I also want to clue you in on a BIG money saver when it comes to books! Ready?

Your local library! I have been a library lover my whole life and recently I got their app and now I can read and listen to books for FREE! Head on down to your library to see if they have the same access for you!

Health Apps

There are so many health apps on the market, you really need to find one that you enjoy! You are busy, maybe overwhelmed, and most likely not taking proper care of your mind, body and soul! Having a fitness app to give you gentle reminders to stay on track with your sleep, food, and fitness is such a help!

You can get a smart watch to add an extra reminder to get up and move too! If you want to truly LIVE MORE and WORK LESS you have to take care of yourself mentally and physically so you can enjoy this one life you were given! Do yourself a favor and try and eat right and exercise a few days a week, and don't forget my favorite thing - SLEEP!

NEXT ➔

In Summary...

As a woman entrepreneur, the ONLY thing you cannot buy more of is your TIME!

The key to ***Living More and Working Less*** is to utilize tech tools for you and your team, so you can work smarter and not harder!

I teach the 4 pillars to building a sustainable business inside ***The Legacy Business School*** - where I walk you step by step through the business fundamentals you probably missed when you started your business, if you are overwhelmed, overworked, and ready for something to change!

THE LEGACY BUSINESS SCHOOL

I hope you try some or all of these time saving and money making apps in your life! Don't download them all at once! Try one at a time and see how it goes. They are supposed to help you, not overload you! As always, remember to live this one life you were given! Sailynn, The "Fun" Business Coach
